

PUBLIC HEALTH (PH)

PH-410 Capstone Project (1-6 credits)

The Capstone experience will be designed to integrate, synthesize and apply knowledge as developed throughout the student's academic program. Students will be eligible to complete their capstone in their junior or senior year (senior status will be required for the Thesis option).

The undergraduate student will have four options for completion of the capstone requirement: internship, study abroad, Honors thesis, or independent study. All capstone experiences will require prior approval from the Chair before work can begin. Prerequisite: junior or senior standing in the major.

Course Types: Capstone
