

LIBERAL ARTS AND SCIENCE STUDIES A.A.

The Liberal Arts and Science Studies Associate in Arts degree (A.A.) is a flexible degree designed for students looking to build academic skills and explore career options. It consists of 60 credits, 45 of which must be in the Liberal Arts and Sciences. It is normally completed in two academic years.

Program Requirements

Code	Title	Credits
	Liberal Arts and Science	45
	Free Electives	15
Total Credits		60

Recommended Course of Study

The recommended course of study includes much of the coursework for the D'Youville General Education Program. Students planning to continue into a Bachelor's degree program, should consider taking 300-level Foundational General Education (FGE) classes in their second year in place of some of the electives. This will facilitate a smoother transition into the third year of Bachelor's degree program.
