

DENTAL HYGIENE PROGRAM

The online BS in Dental Hygiene is a degree completion program for licensed or pre- licensure dental hygienists who have an associate degree in the field. Students may transfer credits from the Dental Hygiene AS degree toward the 120 total hours required. The curriculum is comprehensive, and features courses in general studies, dental hygiene, and a wide range of electives.

As a graduate, you can enhance your skills and knowledge for your current role, prepare to lead in your practice, or pursue new career pathways in research, sales, or pharmaceutical development.
